- Durable and rugged units – heating appliances based on granite have compared to other heating elements a significant long-lasting endurance
- Saves more than 50% energy – proof: inspection report Nr. E-6-18250 ZIK
- Heating device stays warm and delivers heat after being switched off
- Heats when, where and as much as you like (mobile and flexible)
- German technology
- perfect for allergy sufferer, asthmatics and rheumatics: air stays clean as on the surface neither dust nor hair is burning
- pleasant warmth – as by a cockle stove
